The coal mine at Krrabe has five (sic) galleries called: "October", "29th October", "21st December", and "Muddy River". The mine employs about 300 workers and operates 24 hours a day. The bulk of the mine's production is delivered to the Stalin Combine in Tirana; the rest goes to hotels and government offices for heating. As of March 1955 the coal was delivered by four Shkoda 7 ton trucks making three round trips a day. The coal is of average quality (350-400 degrees).
